PROFILE

In my role as a **Web Developer**, my primary responsibilities revolved around creating, implementing, and maintaining features using **PHP**, **JinJava** and **JavaScript**, alongside open-source libraries such as **jQuery**. I also mastered coding campaign landing pages based on projects designed in **Figma**, **Adobe XD**, or **Adobe Photoshop**.

A noteworthy achievement includes my significant contribution to the successful implementation of a new e-commerce website. Throughout this long-term project, I took on a **mentoring role**, **guiding** and **supporting** inexperienced Web Developers.

I conducted **onboarding training for the newest members of the team.**

SKILLS

- JavaScript (ES6+) + TypeScript
- CSS + SCSS.
- Vue.js + Pinia.
- Node.js + Express.js.
- Jest + Vitest.
- Basic SQL.

- Postman.
- Figma.
- Basic Git.

- Mobile First Design + Responsive Web Design.
- Knowledge of accessibility (WCAG).
- Analytical mindset.
- Problem solving attitude.
- Willingness to learn and use multiple technologies.
- English B2+.

EDUCATION

During my studies, I completed various projects in different technologies, including **React**, **Vue**, **Python.**
